Remove Duplicate Songs Automatically with One Mouse Click

Was released new edition of Remove Duplicate Songs, v 7.38. In new Remove Duplicate Songs made large number of improvements, especially related to increasing of stability and speed of duplicate file removing, music and media organizing, sorting and renaming process. First, in Remove Duplicate Songs was improved organizing of MP3 music files without any tag information or only with partial tag information. Now with Remove Duplicate Songs all they are automatically organized using information, which is available, even if it is partial. Also to Remove Duplicate Songs was appended possibility for easy image files organizing. Not a secret, that people, who collect music, also have large collections of photos. And all this photos are also need to be organized. We gathered large number of requests from our Remove Duplicate Songs users to append photo organizing possibilities to our software. And they are now available! In new version of Remove Duplicate Songs was appended a new wizard for photo organizing. It is named "Organize Photos" and is accessible over "Wizards" -> "Organize Photos" Remove Duplicate Songs top menu item. There are several standard methods of photo organizing: by camera model and manufacture, by photo dimensions (width and height), by photo content type (Color or Black and white, Photo, Drawing or Document scan, etc.), by photo creation date or something custom, that you can easily specify for yourself by pressing "Edit" button. In new version of Sort MP3 music organizer are also were foreseen large amount of non-standard situations, that may occur. For example, if while MP3 music organizing free space on the destination hard drive will be too low to continue music organizing, a special notification will be shown and you will easily understand, what had happened. Another example of positive changes in Remove Duplicate Songs - if there will not be any MP3 music files in source folder and you will want to start MP3 music organizing, you will be notified, that there are no MP3 music files in the source folder to organize. Intuitive icon, which will be shown in addition to event description, will let you know, that there are no MP3 music files in source folder to organize. By just one click on this sign will be opened source folder (you don't need to go to Windows Explorer to find it) and you will have possibility to copy to it all MP3 music files, that you want to be sorted, organized and automatically renamed. As you know, Remove Duplicate Songs organize not only your MP3 music and music in 176 other formats and types, it also organize all your photos, movies, video clips, text documents (PDF, Microsoft Office, etc.), archives (ZIP, RAR, etc.) and all files, music and media inside of archives. Remove Duplicate Songs now is able to organize photos by variety of their tags and properties.
